

HOW TO READ THE PROGRAM

Whom did he beat? Who had the mount? How fast did they run? What's his breeding? For the answers, look to the past performances pages of this track program. It all might look intimidating at first, but this page will show you how to use the wealth of data supplied for each horse. The past performance lines used in this "How to Read" page are not actually associated with Funny Cide. The lines provided are a complete example of all of the components of a past performance line in an effort to educate and inform the betting public.
